### **DETAILED ACTION**

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-16, 21, 25, 30, 31 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Fries Hastings (US 5,242,950).

Fries Hastings teaches the use of L-deprenyl or a pharmaceutical acceptable acid addition salt thereof for the treatment of macular degeneration. See the abstract, column 2, lines 34-49 and 58-63. The use of Human patient is taught in claims 1-5. The above reference makes clear that the claimed compounds have been previously used in the body for the treatment of macular degeneration. In the absence of specific patient population such use would inherently treats glaucoma. The addition of the phrase “in a subject having glaucoma” or “in a subject suffering from glaucoma” will overcome the above rejection.

Claims 22, 23, 24, 27, 28, 29, 32, 33 and 34 are objected as being dependent on rejected claims.
